The variation from one genre and style of song to another gave your concert a wonderful texture.

—Slovakian Heritage Association

Outstanding teaching and performing. I especially enjoyed the moment in your concert when our group of amateur singers formed as a chorus with you for the expanding circle of dancers.

—Bart Carpenter, Susquehanna Folk Music Society

Thanks so much. I received lots of enthusiastic feedback after the concert: about the superb blend of your voices, the rapport between members, the beautiful ornamentation.

—Lindsay Weightman, Temple University
